My name is Ali Hussain Mansuri. I'm pursuing my Bachelors of Engineering in Information Technology stream from IET DAVV Indore. Also, I did my 12th & 10th from CBSE Board in the year 2019 and 2017 respectively. Though I am currently staying in Indore I was born and brought up in Zirapur, Madhya Pradesh, and did my schooling from there itself.

Coming to my skills in programming language I know C++ and JAVA. I have Knowledge of Data Structure and Algorithms. I'm a Full Stack Developer in MERN.

To be honest, my short-term goal is to get a internship in a reputed company where I can use my skills and knowledge to deliver value-added result and in long term, the goal would be to achieve a good position in the particular company to scale up organization's production & growth rate and at the same time for the betterment of my personal career growth as well.

Other than that, if I talk about my strengths I can say that I'm a quick learner, team player, adaptable and creative person.

In my free time, I enjoy spending time with my family, reading, playing outdoor sport.

Education

B.E. in Information Technology IET DAVV at Indore 2020 - Present
